B) A Report in the Following Format (Not to exceed 2 pages)

i) Title: Report on the One Day National e-Seminar on “Water Resource Management Using Geospatial Technology”

ii) Introduction:

The department of Geography has organized One day National Seminar On “Water Resource Management Using Geospatial Technology” On dated 18th Feb. 2021. The Geospatial is one of the emerging technologies in the study of Geography. It Includes Geographical Information System (GIS), Remote Sensing (RS) and GPS. It is most reliable and timely technique in the study of geographical phenomena on the earth.

iii) Objectives of the Programme / issues addressed:

- The main objective of this seminar was to understand the use of geospatial technique in the water resource management.
- The students, researchers, and academicians make familiar with this technology.
- Make aware about the application of Geospatial Technology.

iv) Details of Participants:

There were 461 persons registered for this seminar. Among those 263 teachers, 198 research scholars and students of UG and PG from various colleges from throughout the India.

v) Brief Summary of Events/ Sessions:

The Program was started on time i.e. 11.30am on 18th Feb.2021. The Chairperson of this seminar was Dr. Mahadev H. Gavhane, Principal, Rajarshi Shahu Mahavidyalaya, (Autonomous), Latur. The special presence was Vice Principal Dr. A.J. Raju and Prof. S. N. Shinde. The Resource Person was Dr. Anil S. Yedage, Asst. Professor, ParvatibaiChowgule College of Arts and Science, Margao, Goa. The resource person was focused on the Application of Remote sensing, GIS and GPS technology for gathering the information of water resources, their issues/problems, conservation and management for betterment of biotic and abiotic elements on the earth.

vi) Conclusion, with Feedback on the Programme:

The Participant have understood how the geospatial technique is useful in the process of water resource management. How we can apply this technique to conserve the water resources are present on the earth.

The participants are expressed their views by feedback as, some new participant came to know what is geospatial technology and their uses in water resource conservation. The participants understood the how much water harvesting is important in the present condition. The people also become familiar about the delineation of water shade for water conservation. The participants also get the ideas about the image processing in the field of Geographical study.
