B) Report

i. Title: Four Week Certificate Course on Basics of Stock Market Operation

ii. Introduction:

Certification in Stock Market for beginners is a perfectly designed stock market basics course, to create a powerful knowledge bank on various tools and techniques required to understand the functioning of capital markets. It gives a basic insight of financial jargons like Equities, IPOs, Derivatives, Technical Analysis of stock market, Macroeconomics and Financial Planning. It is a perfect blend of fundamental analysis of stocks, which shall help the investor to pick the right company and technical analysis which will provide the correct entry and exit timing and prices through study of charts. This is the main reason why Department of Commerce has organised this certificate course for the students.

iii. Objectives of the Programme/ issues addressed:

- To teach the learners regarding stock market trading and make them aware of the tools for selecting stock for investment.
- To provides a compressive analysis on investment decision and various components in share market.
- To provide knowledge about when to take a correct entry and exit through study of charts, technical indicators, and Candlestick patterns.
- To help the learners to become a good trader with full knowledge about the short term, mid-term Trading and Long Term Investments.
- To help the students in understanding the complete techniques to earn more profit in the stock market.

iv. Details of Participants:

Total 80 participants (Male 20 and Female 60) attended the Session.

v. Brief Summary of Events/ Sessions:

The Four Week Certificate Course on Stock Market Operation was organized by the Department of Commerce. This certificate course is specially designed for college faculty and students who would like to learn about day trading tips in the stock market. It is a one-month short duration course. The segment is based on Theory as well as practical. The course includes derivatives, capital, commodity, options, and currency markets.

This course is particularly developed for the beginners and fresher's who want to acquire information on how to trade stocks and know the basics of share market? how to invest in share market? how it works? what rules they have to follow while trading in the stock market, future and option markets commodity market? how to trade stocks? and what are the dos and don'ts for investors and traders in the stock market? etc.

vi. Conclusion, with Feedback on the Programme:

The Four Week Certificate Course on Stock Market Operation will help the students to know the basics of stock market operation. This course will help the students in understanding the complete techniques to earn more profit in the stock market. This program is helpful for the students for future investment and know the procedures to earn more while investing lesser capital.
