## B) Report

- i) **Title: Baseline House Hold survey of Mauje Gaur , Tq.Nilanga Dist. Latur**
- ii) Introduction : Household surveys are one of the most important sources of social and demographic statistics of villages. While housing censuses are also a key source of such statistics. Household sample surveys — which can investigate almost any population-based subject — are therefore a powerful alternative, becoming one of the most flexible sources of data on social phenomena in the last few decades.
- iii) **Objectives**
- To Know the head of the household
  - To Know the age and gender of every citizen of village
  - To Know the educational status of villagers.
  - To Know How many children and adults are there in the household?
  - To Know socioeconomic status of villagers .

**Details of Participants: About 48 students and 04 staff members participated in survey**
