A) Summary Report

1) Title of Programme:		Industrial Visit		
2) Name of Organizing Department/Unit:		Biotechnology & Food Processing Technology		
3) Name of the Coordinator(s)/ Convener(s)/ Organizer(s) of the Programme:		Principal: Dr. M. H. Gavhane Vice- Principal: Dr. A. J. Raju Head: Dr. S. S. Kulkarni		
4) Date(s) of the Programme:		27 th February 2020		
5) Venue/ Mode:		Shivamrut Dairy PVT. LTD. Akulj		
6) Target Group:		BSc. II Year and B. Voc FPT I year		
7) Number of Participants: 63		Male	Female	Total
A separate list with signatures be maintained in the department/Unit)	Students	27	36	63
8) Name(s) and details of Resource Person(s), if any:		NIL		
9) Total Expenditure for the Programme:		NIL		
10) Source of Funding:		Not Applicable		

B) Report:

Industrial Visit to Shivamrut Co-Operative Milk

Shivamrut Milk Union was established on 27th January, 1976 under the Co-operative Societies Act. Initially five talukas from Solapur District, Maharashtra State in India namely Malshiras, Sangola, Pandharpur, Mangalwedha and Karmala were brought under the operational area of this Milk Union. Presently the activities of this Milk Union are mainly concentrated within Malshiras taluka and its surrounding villages thereby covering 236 village collection centres. On the ideological lines of the Late SAHAKAR MAHARSHI SHANKARRAO MOHITE-PATIL and under the valuable guidance of Hon. Shri. Vijaysinh S. Mohite-Patil, along with the Board of Directors, this organization is continuously marching ahead on the path of progress. Due to effective implementation of this program, income generated from Dairy business tuned to Rs. 250 crores annually in this area, thereby creating self-employments to about 40,000 rural families within this taluka. 3 faculty members along with 60 students from BSc. II Year and B. Voc FPT I year food processing and technology were visited to one day industrial visit to Shivamrut Milk Akluj. The main Objective of the study is to:

- To understand the milk producers in procurement, marketing of milk, biological and medicinal inputs, and cattle feed etc.
- To understand the process of milk by Homogenization and Pasteurization in a highly sanitary condition.
- To undertake production and supply of nutritious and balanced cattle feed.
- To understand the real working and quality control analysis of milk and related products.
