B) A Report

I. Title:

“National Webinar on Diagnostics & Vaccine Strategies for COVID-19”

II. Introduction:

The global research community faces urgent calls for the development of rapid diagnostic tools, effective treatment protocols, and most important development of vaccines against the COVID -19. Pooling together expertise across broad domains to innovate effective solutions is the need of an hour. Keeping this in mind, Department of Biotechnology and food processing Technology organized National Webinar on Diagnostics & Vaccine strategies for COVID-19 on 07.06.2020.

III. Objectives of the Programme:

- Be aware of the students about diagnostic methods in detecting the COVID-19 virus.
- To explain the students, various strategies used in the development of COVID-19 vaccines during pandemics.

IV. Details of Participants

Total 311 Participants have attended this program in online mode (Male 118 and female 193)

V. Brief Summary of Events/ Session

Dr. Santosh C. Narwade is one of our proud alumni who is currently working as Team Leader in Vaccine Development Project, Serum Institute of India, Pune. He explained in brief about the role of vaccines in strengthening the individual immunity, how to produce the vaccine? what are the strategies used in the production of a vaccine to combat against COVID 19 pandemic situation. Dr. Narwade also explained the scope and opportunities of Biotechnology for students to enter into the R&D and industrial sector. He also emphasized on skills required for working in the Biopharma industry.

VI. Conclusion, with feedback on the program

National Webinar on "Diagnostics & Vaccine Strategies for COVID 19 made the students aware about current pandemic situation and also the role of life sciences in the development of vaccines, disease diagnosis, and production of a new type of vaccine. The students learned Strategies required for the development of vaccine from the webinar.
