## **B) Report**

**i. Title:** National Seminar on “Overseas Career Opportunities in Life Sciences”

**ii. Introduction:**

Life science is the scientific study of living things, including plants, animals, humans and microorganisms like bacteria. Those pursuing careers in the life sciences typically have degrees in biology, ecology, environmental science, life science or a related subject like chemistry. Careers in the life sciences are diverse and can apply to many industries. For example, these scientists may work in agriculture and food science, conservation and environmental advocacy or medicine and bioengineering. Since it's such a diverse field, those looking to start a career in life science have many options, including opportunities. A large number of our students enjoy their subject so much that they choose to take a postgraduate Master's degree or a PhD. The national Seminar on Overseas Career Opportunities in Life Sciences aims to help the students to understand various opportunities in life science in foreign countries and guided by our Resource person and our proud alumnae **Dr. Sandeep J. Sarde**, Scientist Bioinformatics @ HZPC, Elst, Gelderland, Netherlands. The Seminar was organized by Department of Biotechnology on 12<sup>th</sup> February 2022.

### **Objectives of the Programme:**

- To Understand Opportunities in Life Sciences.
- To aware students about different fields in life sciences and their future scope.
- To motivate students for research in India and foreign countries.
- To understand the process of application for research in foreign countries.

**iii. Details of participants:**

167 participants (82 Male and 85 Female) attended the Programme.

**iv. Brief summary of Events/ Session:**

Dr. Sandeep J. Sarde, Scientist Bioinformatics @ HZPC, Elst, Gelderland, Netherlands addressed our students and made aware about career prospects in abroad. He also educated the students on how to apply in different biological universities in Netherland (Wageningen University, Utrecht University and Nijmegen University) and in Germany. Dr. Sandeep J. Sarde guided our students about how to get Scholarships i. e. DAAD and Max Plank for further research in abroad.

v. **Conclusion, with Feedback on the Programme:**

The national Seminar covered the importance of various fields in life sciences and their future scope for developing country. It also gave a clear idea to students about they can contribute to society in a variety of health science disciplines and other related fields through many career opportunities in professional disciplines, academic and other research institutions, and industry.
