i) Title: Plastic Eradication

ii) Introduction

The plastic is the non-biodegradable and hazardous material. It is responsible for the pollution of land and water. It becomes toxic and hazardous to the animals after its consumption. Presently the plastic pollution became the Goble issue. People are using the plastics endlessly for their comfort. It is the extreme time to aware the people from the harms and consequences of plastic pollution. The students should be aware about minimum or not use of plastic. Plastic pollution is effective the whole earth, including mankind, wild life and aquatic life. We all must realize the harmful impact and to avoid use of plastic.

ii) Objectives

- 1) To create awareness about plastic eradication among the people.
- 2) To motivate the people to use eco-friendly objects in place of plastic.
- 3) To aware the people from the harms and consequences of plastic pollution.
- 4) To know toxic effects of plastic to the mankind and animals.
