### iii. Objectives of the Programme/ issues addressed

Generally, women haven't a powerful presence in Science, Technology, Engineering and Mathematics (STEM). This can be attributed to two broad issues: first, women's perception and performance in society, and second, society's expectation of their contribution. It should be recognized that the participation of women in STEM is no longer simply an issue of gender equity but it is also an issue that should be considered in National economic development. We have organized this online e-Workshop to empower the women with following themes:

- Women in STEM: Psycho Sociological issues
- · Women's Work, Women's worth

### iv. Details of Participants:
