B) A Report

i. Title: Awareness on “Fuel Conservation Everyone’s Responsibility”

ii. Introduction:

We need fuel conservation because our Earth, though rich in natural resources and fossil fuels, has a specific limit. If we do not conserve and use our resources wisely, we will have to face the consequences. There are two kinds of resources in this world – renewable resources and non-renewable resources, renewable resources can be recycled and reused repeatedly. Thus, they are not wasteful. Non-renewable resources refers that these cannot be reused and recycled.

iii. Objectives of the program/issues addressed:

- Awareness for Fuel Conservation so that we cannot suffer incoming problems
- To know the importance of natural gases.
- Awareness about conservation of Energy.

iv. Details of Participants: Total: 84 (Male 40, Female 44) Students were present for the program

v. Brief Summary of the event:

Dr. Nishank Pimple delivered lecture on “Fuel conservation –Everyone’s Responsibility”. In his speech he said that, Fossil fuels like coal, petroleum, and diesel are non-renewable fuels. Once used, they take millions of years to reform and thus, are practically non-reusable. On the other hand, alternative fuels like solar energy, wind energy, and hydroelectricity are renewable fuels, and they rarely run out of supply. So it’s everyone’s responsibility to Conserve Fuel to conserving our natural resources so that our next generations’ do not have to suffer the consequences of fuel depletion.

Chairperson Prin. Dr. Mahadev Gavhane said that, Using Natural gas in vehicles helps to reduce the use of petroleum. Natural gas causes less pollution and is a more convenient fuel for automobiles. Fossil fuels must be saved for the next generations. They are precious, and we must understand their worth. Fuel conservation is necessary for the creation of a beautiful world.

vi. Conclusion with feedback on the Programme:

From this program participants aware that Fuel Conservation is necessary to conserve our natural resources so that our next generations’ do not have to suffer the incoming problems and for the creation of beautiful world.
