#### B) Report

#### i. Title:

Workshop on Solar Energy and Energy Conservation under Alumni interaction

#### ii. Introduction:

Energy conservation plays an important role in saving non-renewable energy resources. Furthermore, non-renewable energy sources take many centuries to regenerate. Moreover, humans consume energy at a faster rate than it can be produced. Therefore, energy conservation would lead to the preservation of these precious non-renewable sources of energy. As a renewable source of power, solar energy has an important role in reducing greenhouse gas emissions and mitigating climate change, which is critical to protecting humans, wildlife, and ecosystems. Solar energy can also improve air quality and reduce water use from energy production. The Department of Physics and Electronics arranged the Workshop on Solar Energy and Energy Conservation on 23.02.2023.

#### iii. Objectives

- > To create awareness about the importance and need of renewable energy sources, energy conservation and environmental importance.
- > To emphasize on the use and development of various solar products.
- > To describe ways to incorporate energy conservation into daily activities.

#### iv. Details of Participants

141 participants (Male 64 and Female 77) attended the workshop.

#### v. Brief Summary of Events/ Sessions

Dr Dayanand Raje delivered the concept note and introduced the Resource Person. Mr. Santosh Balgir, MD Sunrays Green Energy, Latur was the resource person. Mr. Santosh Balgir delivered lecture on "Solar Energy and Energy Conservation". He discussed how to save energy, Ways to Save the Environment and Conserve Energy. Through his lecture, he highlighted the applications of solar energy in house and various fields like Industry, Farming, Communication, Medical, etc. Chairperson Prin. Dr. Mahadev Gavhane said that now a day's nonconventional energy sources like Solar energy, Wind energy and Tidal energy are necessary for day today's life for human beings. It was thoroughly enlightening and informative session.

#### vi. Conclusion, with Feedback

From this workshop, students understood the importance of solar energy, tidal energy, wind energy and the aspects of their abundant nature.
