i. Title:

One Day National e- Workshop on Research Paper and Review Article Writing

The research paper analyzes the theory or contradicts the point. A research paper is more than the sum of your sources, it is more than a collection of different pieces of information on a topic, and it is more than a review of texts in a field. A research paper is an essay in which you describe what you have learned after exploring your topic in depth. In the research paper, you include information from sources such as books, articles, interviews and online sites. You also use your ideas, knowledge and ideas. Scientific research topics provide a way for scientists to communicate with other scientists about the results of their research. This idea keeps in mind we decided to plan such a program to focus the idea about the research paper and writing review among students.
