## **B) Report**

### **i. Title:**

National Sparrow Photography Contest On The Occasion Of World Sparrow Day.

### **ii. Introduction:**

To raise awareness and protect the house sparrows, every year on March 20 World Sparrow Day is observed. The first World Sparrow Day was organized in 2010. This celebration encourages people to protect the birds from extinction. This initiative was taken by the Nature Forever Society in India, the Eco-Sys Action Foundation (France) and several national and international organizations worldwide.

This initiative also raises awareness of the effect of noise pollution on house sparrows and other birds across the globe.

The Nature Forever Society of India and the Eco-Sys Action Foundation of France came up with the idea for World Sparrow Day. The idea was to dedicate a day for the house sparrow in order to spread the word about its protection.

### **iii. Objectives of the Workshop**

- To raise awareness on the importance of sparrows.
- To dedicate a day for the house sparrow in order to spread the word about its protection..
- To encourages people to protect the birds from extinction.
- To collect images and information about different species of sparrows from across the region.

### **iv. Details of Participants**

28 participants (Male 14 and 14 Female) attended the workshop.

### **v. Brief Summary of Events/Sessions**

"I Love Sparrows" is the theme for World Sparrow Day. It was inspired by the hope that more people will recognize the importance of the human-sparrow interaction. The theme's major goal is to emphasis people's passion for sparrows and the seemingly tiny things they do to make a great difference in the birds' lives.

The students were allowed to roam around their area of interest in their localities to study and take photographs of different species of sparrows in their localities and collect them by uploading on google form link.

House sparrows were a common sight in our backyards, and they were easy to see. However, as we have lost touch with nature and biodiversity in recent years, spotting house sparrows in the city has become more difficult.

### **vi. Conclusion with feedback of Workshop:**

The World Sparrow Day activity was aimed to raise awareness on the plight of the sparrow, to bring individuals together who have a passion for sparrows and appreciate their beauty. The purpose of World Sparrow Day is not only to honor the event for a day
