## B) Report

i. Title: Guest Lecture on Integrated Fish Farming.

### ii. Introduction:

The foundation of integrated fish farming is the idea that 'there is no waste', and waste is only a misplaced resource which can become a valuable material for another product. The fundamentals of integrated farming are conservation, including complete utilization of farm wastes, and utilizing the synergistic impacts of connected farm activities. Due to the fact that integrated farming recycles trash, it has been seen as an economical and effective method of environmental management.

### iii. Objectives of the Programme/ Issues Addressed:

- To upgrade knowledge about integrated fish farming.
- To discuss all the issues and implement new technologies for the development in Integrated fish farming.
- To encourage the people as well as popularize technology used in integrated fish farming.

### iv. Details of Participants:

45 participants (Male 17 and 28 Female) attended the Guest lecture.

### v. Brief Summary of Events/Sessions:

Dr. Milind Lokhande gives information about what is Integrated fish farming, their different types and scopes. He satisfied the student by answering the questions they found in integrated fish farming. So, overall this Guest lecture was generating interest about Integrated fish farming in all UG and PG students.

### vi. Conclusion With feedback of Workshop

Participant like students and teachers were highly impressed. Students were satisfied with presentation and he resolve student's concept about Integrated Fish Farming. Encouraged students to learn about the Integrated fish farming.

### vii. Any appendix if necessary

List of Participant has been attached.
