B) Report

i) Title: Poster Presentation On Occasion of National Honey Bee Awareness Day.

ii) Introductions:

Colleges and educational institutions play a crucial role in fostering environmental awareness and promoting biodiversity conservation. The Department of Zoology and Fishery Science actively contributes to environmental and ecological education by organizing various outreach and awareness programs in Latur City and nearby regions. In alignment with this commitment, the department celebrated National Honey Bee Awareness Day to emphasize the ecological and economic importance of honey bees. The event aimed to educate students and teachers about pollination, honey production, and the vital role bees play in maintaining ecosystem balance. Through interactive sessions and demonstrations, participants gained valuable insights into apiculture and the conservation of these essential pollinators.

iii) Objectives of the Programme

1. To raise awareness about the ecological and economic importance of honey bees.
2. To educate students about honey bee biology, behavior, and their role in pollination.
3. To demonstrate practical aspects of apiculture and honey extraction.
4. To encourage sustainable beekeeping practices for biodiversity conservation.
5. To inspire interest among students in apiculture as a scientific and entrepreneurial field.

iv) Details of participants: 51 participants (Male 13 and 38 Female) attended the Poster Presentation On Occasion of National Honey Bee Awareness Day.

v) Brief summary of Events:

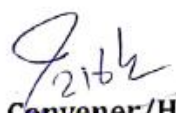

The Department of Zoology and Fishery Science organized the National Honey Bee Awareness Day in January 2025, with participation from students of the department. The event began with an inaugural session, featuring a welcome address by faculty members highlighting the importance of pollinators in maintaining ecological balance. Interactive lectures were delivered on topics such as "Role of Bees in Biodiversity Conservation" by Dr.D.S. Rathod [HoD] and "Techniques of Beekeeping and Honey Extraction." by Dr.K.S.Raut. Demonstrations included showcasing bee hives, tools used in apiculture, and the process of honey collection and preservation.

vi) Conclusion: About 109 students visited to the department and they got knowledge about scientific experiments and museum specimens.
