Online survey for COVID 19 infection and Vaccination - 2021**

Introduction:

World Health Organization (WHO) declared Coronavirus disease 2019, also known as COVID-19 as a pandemic on 11 March 2020. WHO has recommended personal hygiene (respiratory hygiene, using face masks, washing hands with warm water and soap, use of alcohol-based hand sanitizers, avoid touching mouth, eyes & nose, cleanliness), social distancing and careful handling of purchased products as an effective preventive measure for COVID-19 disease.

The government agencies and non-government organizations (NGO) are continuously striving hard to educate and make aware the people about the measures to be taken to reduce the spread of infection. Government and NGOs are also busy in counseling the people in the context-specific, complex issue of 'vaccine hesitancy' explained in terms of delay or refusal of vaccination.

The present study, **Online survey for COVID 19 infection and Vaccination – 2021**, was aimed to determine the awareness, knowledge and attitude about COVID-19 infection and vaccination among people in Latur City (Maharashtra, India).

The survey was also conducted as a part of an awareness-creating exercise as well as it gives a chance to people to introspect all aspects of their daily life. The study also attempted to judge the awareness, threat, symptoms and its prevention among people about the COVID-19.

The survey was conducted by 28 students of B. Sc. third year who have online consulted 300 families, 1108 family members, between the period 01 April, 2021 to 30 May, 2021.

Counseling, mobilization, and feedback from vaccinated individuals about safety should be encouraged. However, due to the limited sample size, we are cautious in generalizing these findings. Nevertheless, the major elucidations of this study may be utilized in planning vaccination campaigns in further phases.

Online Survey for Covid19 infection and Vaccination - 2021

Report

Date: 08 July, 2021

Survey period:	01 April, 2021 To 30 may, 2021
Number of students participated:	28
Area under survey:	Unrestricted
Number of Families under survey:	300
Age group:	Family members having age more than 18yrs
Number of individuals surveyed :	1108
Number of family members infected with Covid19 :	106
Percent of infection:	9.5%
Number of family members vaccinated for covid19 :	414
Percent vaccination (first dose):	37%

Online Survey for Covid-19 infection and Vaccination – 2021

Academic Year 2020-21

Students Participants List

Sr. No.	Roll No.	Name of the Student
1.	5	Bamankar Akanksha Eaknath
2.	7	Bembde Shradha Satish
3.	9	Bhosale Amar Parmeshwar
4.	15	Chame Pratiksha Kamalakar
5.	17	Chavan Pragati Rajesaheb
6.	22	Deshmukh Diksha Pradeep
7.	28	Gaikwad Sagar Laxman
8.	29	Gajakosh Sonali Devidas
9.	32	Ghogare Pratiksha Shivaji
10.	47	Jadhav Shridhan Digambar
11.	57	Kasbe Sumedh Ananda
12.	62	Kulkarni Nishant Pravin
13.	64	Kulkarni Vaishnavi Venkatesh
14.	65	Kumbhar Jagruti Balasaheb
15.	67	Madde Sushma Babruwan
16.	71	Mane Shubham Haridas
17.	76	Maske Gaurav Tukaram
18.	84	Padgi Pooja Limbaji
19.	100	Saberi Nigar Husain Ahmed
20.	102	Salunke Shailesh Balaji
21.	103	Sawant Shradha Shrimant
22.	105	Shaikh Amreen Abdulrahim

23.	106	Shaikh Ashiya Jafarsab
24.	108	Shaikh Neha Mainuddin
25.	112	Shinde Ankita Abasaheb
26.	113	Shinde Muktabai Vinod
27.	114	Shinde Pratiksha Bhagwantrao
28.	118	Sindhikumthe Pravin Raghunath
