B) Report

i. Title:

Blood Group Testing Camp

ii. Introduction:

In case of an emergency, it is crucial to know your blood type. You'll need compatible blood if you ever find yourself in a position where you need a blood transfusion. Blood cells can cluster together due to an incompatible blood group, which can be lethal. Knowing your blood type is one of the best and most unselfish ways to help others by donating blood. Whether you are O or A, medical facilities are always in need of blood donors. Generally many new comer students donot know their blood groups. The students need to write their blood groups while filling up the admission forms.

A Blood group testing camp was arranged to celebrate the Commemoration of Robert Koch, the veteran scientist in Microbiology, on 11th December, 2021. The camp was arranged on free of cost basis only to enable students to know their blood group. It is arranged by the Microbiology Department every year as best practice of this department.

iii. Objectives of the Programme / issues addressed:

1. To celebrate the Commemoration of Robert Koch
2. To help the students to know their blood group
3. To motivate the expert students to serve for a better social cause

iv. Details of Participants:

97 participants (27 Male and 70 Female) attended the camp

v. Brief Summary of Events/ Sessions

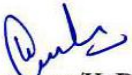

The blood group testing camp was arranged on 11th December, 2021 from 11:30am onwards. It was inaugurated with the auspicious hands of Respected Vice-Principal Prof. Sadashiv Shinde in presence of Guest of honour Prof. Rupesh Andhare, Head department of Microbiology, Shivneri College, Shirur Anantpal, and Prof. K.G. Maske, head department of Microbiology.

vi. Conclusion, with Feedback on the Programme: 97 Students visited the camp and got their blood group verified.
