## **B) Report**

### **i. Title: “World Microbiome Day”**

### **ii. Introduction:**

On 27<sup>th</sup> June each year International Microorganism Day is celebrated to promote awareness of microorganisms and their importance to human society. Microorganisms (also called microbes, including bacteria, fungi, viruses, archaea, etc.) are present everywhere. Even though they are usually invisible to the naked eye, they live in and on plants, animals, water, soil, food and humans. Within each of those habitats, microorganisms form communities called ‘MICROBIOMES’. Through increased awareness and education we can create a world, where microbes are recognized for their importance and huge potential to solve some of the greatest challenges of present time.

Department of Microbiology, Rajarshi Shahu Mahavidyalaya (Auto.) Latur and MICROBIOL, Microbiology students association organized “World Microbiome Day” on 27<sup>th</sup> June, 2022 at 3.00 P.M.

### **iii. Objectives of the Program**

- To create awareness among young people and the society about the role of microorganisms play in our health, environment and quality of life, as well as of their biotechnological potential.
- To provide knowledge about MICROBIOME to the students

### **iv. Details of Participants**
