## B) Report

### i. Title:

Guest lecture on: "Importance of Biofertilizers"

### ii. Introduction

Guest lecture on importance of biofertilizers was arranged on 18<sup>th</sup> August 2022 @3.00 p.m. for Microbiology UG and PG students. Biofertilizers are natural fertilizers which are living microbial inoculants of bacteria, algae, fungi alone or in combination and they augment the availability of nutrients to the plants. The role of biofertilizers in agriculture assumes special significance, particularly with special reference to increased cost of chemical fertilizer and their hazardous effects on soil health

### iii. Objectives of the Program

- To raise awareness among students about promotion of biofertilizers in agriculture
- To provide a platform for the students to understand need of biofertilizers and interact with resource person

### iv. Details of Participants

40 participants (Male 13 and 27 Female) attended the guest lecture.

### v. Brief Summary of Events/ Sessions:
