A) A Summary Report of the Activity

1) Title of Programme:	College Day Celebration			
2) Name of Organizing Department/Unit:	Department of Microbiology			
3) Name of the Coordinator(s)/ Convener(s)/ Organizer(s) of the Programme:	Chief Organizer: Principal Dr. Mahadev Gavhane Convener: Prof. S. N. Shinde			
4) Date(s) of the Programme:	9 th February, 2026			
5) Venue:	Microbiology Department			
6) Target Group:	Students of B. Sc. and M. Sc.			
7) Number of Participants:	Male	Female	Total	
A separate list with signatures be maintained in the department/Unit)	Teaching	01	04	05
	Non- Teaching	01	00	01
	Students	08	08	16
8) Name(s) and details of Resource Person(s), if any:	Nil			
9) Total Expenditure for the Programme:	Nil			

B) Report

i. Title: “ College Day Celebration”.

ii. Introduction

On 9th Feb 2026, the Department of Microbiology organized the College Day Celebration constitutes one of the most cherished and pedagogically significant annual events in the academic calendar of the institution. Beyond its ceremonial character, this year’s observance was distinguished by a transformative experiential learning initiative in which students were formally entrusted with the administrative and instructional responsibilities of the department. The event fostered a vibrant, collaborative atmosphere that united undergraduate students, postgraduate scholars, and faculty members in a shared educational endeavor. By inverting conventional pedagogical roles, the program challenged students to transcend their customary position as recipients of knowledge and assume the mantle of educators — a transition that demanded intellectual rigor, communicative competence, and thoughtful preparation. The enthusiasm with which participants embraced this responsibility was both commendable and reflective of the department’s commitment to cultivating holistic academic development

iii. Objectives of the Program

1. To provide students with a structured platform for the demonstration of subject-specific knowledge, intellectual creativity, and applied academic skills.
2. To foster the development of oral communication proficiency, classroom management acumen, and leadership qualities through direct pedagogical engagement.
3. To promote peer-to-peer learning as a complementary dimension of formal microbiological education.
4. To cultivate self-confidence, critical thinking, and reflective practice among aspiring future educators and researchers

iv. Details of Participants: A total of 16 students participated in the program, comprising representatives from both Undergraduate (UG) and Postgraduate (PG) cohorts within the Department of Microbiology

v. Brief Summary of Events/ Sessions

The 16 participating students were systematically assigned to designated classrooms in accordance with their individual subject interests and domain expertise, as communicated through a prior interest-mapping exercise. Each student-educator was tasked with independently planning, preparing, and delivering an instructional session on a self-selected topic relevant to the microbiological curriculum. Participants employed a diverse repertoire of pedagogical strategies to enhance the educational quality and interactive engagement of their sessions. These methodologies included structured lectures supported by visual aids, Socratic questioning, small-group discussions, and concept-mapping exercises. The deliberate deployment of varied teaching approaches demonstrated not only subject familiarity but also pedagogical adaptability. Faculty members assumed the role of evaluators, undertaking systematic assessment of each student-educator’s performance

against a predefined rubric encompassing the following competency dimensions:

- Depth and accuracy of subject matter preparation.
- Clarity, structure, and articulation of content delivery.
- Effectiveness in stimulating student engagement and intellectual participation.
- Time management and session organization

vi. Conclusion, with Feedback on the Programme:

The College Day Celebration, as executed through this Student-as-Educator framework, yielded demonstrably positive academic and personal development outcomes for all participating students. The exercise served as an immersive pedagogical intervention, affording participants first-hand exposure to the intellectual and communicative demands inherent in effective teaching

vii. Any Appendix, If Necessary: Nil

viii. List of participants attached
