B) Report

i. Title: "Fermented Food and Beverages Exhibition".

ii. Introduction

On 30th December 2025 at 2:00 PM, the Department of Microbiology organized a "Fermented Food and Beverages Exhibition" to commemorate the birth anniversary of Louis Pasteur. The exhibition aimed to showcase the diverse range of fermented foods and beverages, emphasize their cultural significance, and demonstrate the microbiological principles involved in their preparation.

iii. Objectives of the Program

- To commemorate the birth anniversary of Louis Pasteur by highlighting his contributions to microbiology and fermentation science.
- To create awareness about the wide variety of fermented foods and beverages and their nutritional and health benefits.
- To demonstrate the microbiological processes and the role of microorganisms involved in fermentation.
- To promote understanding of the cultural, traditional, and industrial importance of fermented products in different regions.

iv. Details of Participants

47 Student participants (Male 03 and 44 Female) and 40 student visitors (Male 19 and Female 21) attended the programme

v. Brief Summary of Events/ Sessions

The Department of Microbiology, in association with the MICROBIOL Association, conducted the "Fermented Food and Beverages Exhibition" on 30th December 2025 at 02:00 PM to mark the birth anniversary of Louis Pasteur. The programme was formally inaugurated by Hon. Principal Dr. Mahadev Gavhane with a ribbon-cutting ceremony. The exhibition attracted enthusiastic visitors who showed keen interest in understanding various fermented foods and beverages. Students presented informative posters and confidently explained their prepared dishes to the attendees.

vi. Conclusion, with Feedback on the Programme:

In conclusion, the "Fermented Food and Beverages Exhibition" organized by the Department of Microbiology was a meaningful and educational event that successfully celebrated the birth anniversary of Louis Pasteur. The programme effectively combined scientific knowledge with cultural appreciation, allowing students to demonstrate their understanding of fermentation processes and the importance of microorganisms in food production. With active participation from 47 student presenters and 40 student visitors, the exhibition fostered enthusiasm, teamwork, and scientific awareness, making it an enriching and memorable experience for all attendees.
