<p>To enrich the curriculum, the college collects feedback from various stakeholders including Students, Parents, Alumni, Industrial Experts, Employers, and Teachers of other institutes with the help of a structured questionnaire. Feedbacks are collected for all courses during the mid and end of the Academic Year (Mid Term Survey and Exit Survey). Some departments have used Google based form for collecting the feedback on curriculum. Students: Both UG and PG students provide feedback on curriculum at mid and end of the Academic Year. Parents: The feedback on curriculum is collected during Parents Students Teachers meetings as well as when parents comes to meet the mentor. Industry and Employers: Campus placement drives are conducted through separate placement cell, wherein Employers/ Industries/ placement agencies are asked to provide feedback on curriculum and their suggestions are incorporated in the curriculum. Also Employers/ Industries are asked to provide feedback through Alumni network. Alumni: Alumni association meetings are arranged, wherein the Alumni gives the feedback regarding need of curriculum at their work places. Alumni feedback from alumni working in various industries, institutes,</p>

government and private sector is taken through email. Teachers of other institutes: Teachers of other institutes provide the feedback during meeting of Board of Examiners and conduct of practical examinations in science subjects. Also feedback is collected from the teachers attending workshops, conferences, seminars, graduation day, guest lectures etc. For some courses the copy of syllabus and feedback form is sent through email to HoDs, Directors of Schools and their feedback is sought through email. During 2018 2019, the feedback on curriculum is received from 701 Students, 356 Parents, 232 Alumni, 117 Industrial Experts and Employers, and 211 Teachers of other institutes in the form of structured questionnaire. The received feedbacks were analysed through structured ICT based mechanism and corrective measures are taken in respective Board of Studies meetings. The feedback analysis and action taken report on suggestions received is approved in Academic Council meeting. The details of feedback analysis and action taken report are uploaded on the college website. (<https://www.shahucollegelatur.org.in/Stakeholder.aspx>)

### 2.3.2 – Students mentoring system available in the institution? Give details. (maximum 500 words)

The role of the teacher in the 21st Century has changed from a teacher to a facilitator. As an institute we provide mentoring and take initiatives to mould the character of the students by facilitating them to overcome various issues such as their academic, nonacademic, emotional and minor economic problems. Most of the students taking admission in our institute are from rural background and many of them are the first generation learners. Due to their socioeconomic environment, these students face the problems of social phobia and inferiority complex which prevent them from being confident and versatile. At the institutional level, we implement student mentoring system. There we counsel and guide every student at an individual level. Mentors are allotted to the students by the UG/PG Class Coordinators. Each teacher is the mentor of about 26 students. All the teachers of the institute take the responsibility of mentorship to make the students free from all phobias and open their minds to grasp and develop new ideas. Mentors collect the personal information of their mentees and guide them on regular basis. Mentees are always free to meet their respective mentors whenever they have any issue or problem. Mentors guide their mentees for their academic progress and maintain their emotional and intellectual quotient. Mentors guide the students for their continual academic progress, career achievements and improve their soft and hard skills. The record of the academic performance of the mentee as well as of personal counseling is properly maintained by the mentor. Through mentoring system we have created student friendly environment in the institution where students feel free to approach their teachers to discuss and share their problems and ideas. Students feel enthusiastic, competent, confident and get motivated for career progression.

#### 3.4.5 – Bibliometrics of the publications during the last academic year based on average citation index in Scopus/ Web of Science or PubMed/ Indian Citation Index

Title of the Paper	Name of Author	Title of journal	Year of publication	Citation Index	Institutional affiliation as mentioned in the publication	Number of citations excluding self citation
Synthesis and characterization of a novel schiff base of 1, 2diaminopropane with substituted salicyaldehyde and its transition	Dr. A.A.Yadav	Journal of Molecular Structure	2018	682	Rajarshi Shahu Mahavidyalaya (Autonomous), Latur	0

metal complexes: Single crystal structures and biological activities						
Review Functionalized crown ether assisted morphological tuning of CuO nano sheets for electrochemical supercapacitors,	Dr. A.A.Yadav	Journal of Electroanalytical Chemistry	2018	682	Rajarshi Shahu Mahavidyalaya (Autonomous), Latur	0
Electrochemical Supercapacitive Performance of Spray Deposited NiO Electrodes	Dr. A.A.Yadav	Journal of Electronic Materials	2018	682	Rajarshi Shahu Mahavidyalaya (Autonomous), Latur	0
Growth and characterization of ZnSxSex thin films deposited by spray pyrolysis	Dr. A.A.Yadav	Thin Solid Films	2018	682	Rajarshi Shahu Mahavidyalaya (Autonomous), Latur	0
Studies on spray deposited Ni doped Mn3O4 electrodes for supercapacitor applications	Dr. A.A.Yadav	Journal of Alloys and Compounds	2018	682	Rajarshi Shahu Mahavidyalaya (Autonomous), Latur	0
Properties of spray deposited ZnSxSex thin films for photoelectrochemical solar	Dr. A.A.Yadav	Journal of Materials Science: Materials in Electronics	2018	682	Rajarshi Shahu Mahavidyalaya (Autonomous), Latur	0

cell application						
Influence of precursor thiourea contents on the properties of spray deposited Cu <sub>2</sub> FeSnS <sub>4</sub> thin films	Dr. A.A.Yadav	Physica B: Condensed Matter	2019	682	Rajarshi Shahu Maha vidyalaya (Autonomous), Latur	0
Growth and characterization of spray deposited quaternary Cu <sub>2</sub> FeSnS <sub>4</sub> semiconductor thin films	Dr. A.A.Yadav	Physica B: Condensed Matter	2019	682	Rajarshi Shahu Maha vidyalaya (Autonomous), Latur	0

life. • The Planning Committee by calling meetings assesses and evaluates the infrastructural, recurring and non recurring needs. • The departmental requirements for the next academic year are sought at the end of the current academic year from the HoDs and other incharge of support units. • The requirements received are thoroughly discussed and evaluated in the meeting and the requirements are submitted to the Finance Committee for approval and action. • The Finance Committee prepares the annual budget by considering the availability of resources and the requirements on priority basis. • The annual budget approved by the Finance Committee is sent to the managing body for approval. Once approved, it is forwarded to the Purchase Committee for necessary action. • The Purchase Committee through the HoD/Incharge of the concerned department initiates the purchase procedure. • All purchases made during the academic year are recorded in accession and stock registers maintained by the departments. • HoD is responsible for maintenance and proper utilization of the resources with the help of faculty and support staff. • The Stock Verification Committee physically verifies the resources and submits its reports to the Principal every year. On the basis of the reports and suggestions, the Principal takes corrective actions, if needed for the optimum use and maintenance of the physical, academic and support facilities. • Library resources are maintained by the Librarian with the help of support staff under the overall supervision of the Library Committee. • The sport facilities are maintained and looked after by the Director of Physical Education with the help of support staff under the overall supervision of Sports and Games Committee. • Gymnasium equipments are looked after by the Gym instructor and maintenance is done through outsourcing, whenever required. • The maintenance of computer hardware and IT enabled systems are done in house by the technical staff and hardware technician. • The electrical equipments and systems are maintained in house by qualified electrician of the college. • The civil infrastructure, additions and upgradations are done through a qualified civil engineer specially appointed by the management. • Painting and beautification of the campus is done periodically through external agencies. The institution being centrally located is a much sought venue for conducting various examinations organised by Government and NGOs namely Medical, Engineering, MPSC, Banking, Navoday Vidyalaya Entrance Exams and for social activities. The detailed procedure and policies of maintenance and utilization of physical, academic and support facilities, laboratory, library, sports complex, computers and other resources are available on the website

5.3.2 – Activity of Student Council & representation of students on academic & administrative bodies/committees of the institution (maximum 500 words)

The Student Council of our institute is constituted as per Maharashtra Public University Act, 2016. However, the act was not implemented by Maharashtra Government in the year 2018/19. Hence, at the institution level we followed the Maharashtra Public University Act 1994 and the Guidelines of the Swami Ramanand Teerth Marathwada University, Nanded to form the student council. The class representatives of various programs and the representatives of supporting units like NSS, NCC, Cultural, Sports and ladies representatives were the members of students' council for the academic year. According to Clause 99 (c) of Maharashtra University Act, 2016, the role of the Students' Council is to protect the curricular, cocurricular, extracurricular activities and the general interest of the students and also to promote welfare of the students. Activities of the Student Council: The Student Council brought the issues of cleanliness, drinking water, canteen services, Library services, Office cooperation, Hostel accommodation, discipline, etc. to the notice of the administrative authorities and got them solved. These representatives act as

volunteers for various conferences, seminars, workshops, gathering and other programmes organized by the college. They also act as coeditors of the college Annual Magazine 'Shabdthagandh'. The Students Council representatives along with the volunteers actively participated in various activities such as Swatch Bharat Abhiyan, Road safety Abhiyan, Water Preservation, Tree Plantation, "Beti Bachao Beti Padhao", Pulse Polio, Anti Addiction Rallies, Anti Superstition Rallies, HIV Awareness Programme, AntiDowry Programme, GramSwachhta Abhiyan, Blood Donation camps etc. organised by local Government Organizations and NGOs. The Student Council takes initiative in providing financial assistance to economically poor students by raising funds and also contribute to Chief Ministers Relief fund in the event of natural calamities such as flood and famine. Student Council members are given a representation on IQAC, CDC, ICC, CASH, Grievance Redressal Committee, Sports Committee, Canteen Committee, Library Committee, Academic Calendar Committee, Annual Social Gathering Committee, Discipline Committee, Cultural Committee, Suggestion Box Committee, Timetable Committee etc. The college administration considers the suggestions given by the student representatives in the deliberations of various committees for the smooth functioning of the institute.

## **CRITERION VI – GOVERNANCE, LEADERSHIP AND MANAGEMENT**

### **6.1 – Institutional Vision and Leadership**

6.1.1 – Mention two practices of decentralization and participative management during the last year (maximum 500 words)

The Managing Body of Shiv Chhatrapati Shikshan Sanstha, while formulating the overall policies pertinent to the Institution, grants operational and academic freedom to the Governing Body of Autonomous College, College Development Council, Academic Council and Principal to evolve and implement appropriate mechanisms and procedures. Principal as the head of the institution works on the principles of delegation and decentralization of administrative authority and responsibilities. The institution practices decentralization and participatory management in keeping with its belief in collective leadership and democratic traditions. A particular reflection of this practice can be seen in the following two cases: 1. Formulation of Autonomy Advisory Committee: UGC granted autonomy to our college in 2013. Soon after, in addition to statutory committees such as Governing Body, Academic Council, Board of Studies and Finance Committee, the Managing Body of Shiv Chhatrapati Shikshan Sanstha formulated Autonomy Advisory Committee for the effective functioning of the autonomous college. The Chairman of the Advisory Committee is the chairman of Management and four other management members. The Principal, all teaching faculty and student representatives are the members of the Advisory Committee. Every policy matter is discussed in the Advisory Committee meeting before placing in the Statutory Bodies. During the academic year two meetings were held, wherein starting of new programmes M.Sc. Zoology and M.Sc. Microbiology was discussed. Member expressed their views about introducing these programmes and finally this committee gave approval to introduce these programmes from next academic year. Similarly the feasibility of introducing skill enhancement and value added certificate and diploma courses was thoroughly discussed by the Advisory Committee and after deliberations, committee recommended to introduce such courses after due approval from Statutory Bodies. Every stakeholder was involved in the decision making process right from the management to students. This is an example indicating the decentralization and participative management. 2. Running Shahu Canteen by the Institution: We have established a canteen for the benefit of the students as well as the staff in the campus in 2016. The contract for running the canteen was given to M/s. Mane Caterers, Latur. There was a Canteen Supervisory Committee consisting members of Management, Principal, Vice Principals, Registrar, Staff and Students Representatives. The committee periodically visits the canteen and inspects the

quality of food, hygiene and other services and also takes feedback from the students as well as staff about the services. On the basis of the feedback taken, it was found that the quality of food, level of hygiene and other services were not satisfactory. The issue was put before the committee and after deliberations it was decided to terminate the contract given to M/s. Mane Caterers and recommended to the Principal to request the Management to run the canteen by the Management itself. Accordingly from the academic year 201819 the Management decided to run the canteen at their own level under the supervision of the Principal. With this decision the quality and the service of the canteen has been improved and the staff and students are satisfied. This is another example indicating

7.1.2 – Environmental Consciousness and Sustainability/Alternate Energy initiatives such as:

Percentage of power requirement of the University met by the renewable energy sources

Our college is very conscious and committed to the environmental issues with regard to protection, conservation and sustenance of natural resources. The college has already conducted the green audit in the year 2017/18 and fulfilled majority of the recommendations suggested in the green audit. The faculty and the students are being sensitized towards environmental issues through continuous orientation programs. The different sectors of the institution promote conservation of natural resources by implementing different strategies with reference to environment consciousness. The college has developed botanical garden and green shade net at the Biotechnology campus. At the main campus the college has planted more than 250 ponds to make campus green and eco friendly in this academic year. The college has Campus Beautification Committee which takes care of green landscaping. Every year NCC and NSS students conduct Plantation Program in adopted village. The college also acted as the Nodal Agency (Latur district) for plantation drive initiated by Government of Maharashtra. The college is also very keen about plastic free campus. As a part of this college has organised Plastic Eradication Rally in this year. "Save Energy" initiative is taken by the Students' Council to make students aware by motivating them to switch off lights and fans before leaving the classroom, to turn off computers when not in use, etc. As a part of this initiative college has already installed a roof top solar power plant of 30 kW through which 32 percent of the energy requirement is met. Also the college has installed 3 solar water heaters of capacity 500 liters each for the girls' hostel on the

campus. Similarly the college has replaced 350 conventional lighting bulbs with LED bulbs and tubes.

### 7.2 – Best Practices

#### 7.2.1 – Describe at least two institutional best practices

7.2 Best Practice 7.2.1 – Describe at least two institutional best practices

1. Title of the Practice: Empowering Students : Laying Foundation for Better Society

2. Objectives of the Practice: i) To inculcate Moral Values among students ii) To promote scientific approach and attitude among students iii) To create gender friendly environment at the college campus iv) To nourish secularism among the students. v) To make students socially sensible, personally honest and disciplined. vi) To sensitize the students on various dimensions of social problems.

3. The Context: The destiny of a Nation is shaped in its classrooms. The future of any nation depends on its students who are the potential torch bearers. However, the current society is becoming more and more materialistic and nucleus. Due to this, society is found to be deprived of love and affection, care, compassion, generosity, sacrifice, kindness, forgiveness, sympathy and empathy. Taking note of all these, the college has designed a specific curriculum, study material and practice for the growth and development of physical, intellectual and moral values among students.

4. The Practice In 1985 the UGC prepared guidelines for human rights teaching and research at all levels of education. The present practice of Moral Values is related with Indian Higher Education. It is a unique practice. This is for the students who are unaware about the moral values. By giving knowledge of moral values the students understand the concepts of Morality, Ethics and Education. Providing value orientation is the only way to stop the decline of Moral Values. Education is not simply imparting knowledge in a particular faculty or subject or making one fit for securing jobs or fair well in exams, but at the same time it is also a training in logical thinking which helps the future generations to adjust in changing environment. It also means opening the doors of the mind, cleansing the soul and realization of the self. Moral Education is introduced as a compulsory course of 50 marks for UG First year students. Under this course renowned social workers and activists are invited to deliver course contents and share their experiences with the students related to above issues during interactive sessions. As a part of practice, students are asked to visit local NGO's involved in addressing these issues. The students by visiting the NGOs such as Sevalay (HIV affected children) Matoshree (old age home), Nari Prabodhan Manch, Miragi Netralaya, Sanvedana

(Cerebral Palsy) etc. interact with the residents and share their experiences.

On the basis of their first hand experience, the students prepare a project report and submit it to the mentor for evaluation. Also an MCQ based test is conducted in order to verify whether the students acquired the expected moral values through this practice. 5. Evidence of Success: After the introduction of this practice, we have observed that the students' attitude has changed considerably. This is observed from the following facts: • Students celebrated their birthdays and festivals with the residents of old age home, orphanage, etc. • More and more students donated blood in blood donation camps and in emergencies. • Students worked with Government agencies and NGOs as Swachhta Doot. • Students worked as blue collars at the Miragi Netralaya for holistic services. • Students collected funds for natural calamities like drought, flood, fodder for drought hit cattle. • Students raised funds to help their less privileged college mates. • Students started to follow the human values.

6. Problems Encountered and Resources Required A) The problems encountered were: • Lack of cooperation from the local NGOs • Mismatch between college timetable and NGOs working hours. • Indifferent attitude among parents for sending their wards for social work. B) Resources Required: • Resource persons • Linkage with NGOs • Transportation facility • Funds

1. Title of the Practice: Water Angel Movement: An Attempt to meet the Water Scarcity of Latur District

2. Objectives: • To spread awareness about water preservation among the people • To motivate the masses for constructing the check dams • To make villages green and prosperous

3. The Context: "Water Angel Movement" is the best practice of our college. Most of the people live their lives on farming. Latur faced the problem of water from many years. In summer season, the people get however water for quench their thirst because of less rainfall and wrong crop production system. Latur is the only city where in 2017, water was provided by railway transportation. Taking into consideration of this worst situation of the city our students and teachers started campaign of water preservation around Latur city. Our students and teachers go to the villages, tell the people about water preservation, organise water preservation camp, and make them aware about water scarcity and how to tackle the drought situation. The students and teachers work with the villagers for digging small percolation ponds, contouring and constructing bunds. So the water will preserve and in coming day's water level will increase and people will get benefit of preserved water for farming as well as drinking water.

4. The Practice: Under this practice we have adopted the Wagholi village in the taluka AUSA, which is one of the drought hit villages in this academic year. During the academic year our team of students along with the teachers visited the village and performed above mentioned activities by involving local people with the help of Grampanchayat. On 1st May Maharashtra Day, 1164 students and 30 teachers participated in "Mahashramdan Campaign" organized in collaboration with Paani Foundationan NGO at Wagholi village. Our college students and staff worked there for the whole day and dug 70 pits (farm ponds) and canals. We also organise various programs in order to make villagers aware about the importance of water conservation, water harvesting, Shramadan and also arrange lectures for guiding them about crops suitable in the drought prone area.

5. Evidence of Success: As a result of our massive work all the pits and canals, farm ponds (shettale) over flowed during the monsoon and as a result the water level has substantially increased. We have conducted a survey in order to access the success rate of our efforts and it was found out that during summer period the number of water tankers supplying drinking water was reduced as compared to the previous summer. The gram panchayat recognised our efforts by conferring "Shramdan Puraskar" to us.

6. Problems Encountered and Resources Required

Problems Encountered: • Lack of Earth movers. • Lack of accommodation facility for girl students. • Lack of resource persons to come to the villages.

Resources Required • Earth movers. • Transportation facilities for students. • Food and accommodation at working site. • Funds.
