From the Desk of the Principal

Dear Students,

I welcome you whole heartedly to our B.A. (Competitive Examinations Programme - CEP) to encourage you in Competitive World. In order to establish Latur Pattern in Competitive Examination we have introduced B.A. (CEP).

I believe that 'the sooner the better' as far as the preparation for Competitive Exams (UPSC / MPSC / PSI / STI / ASO / IBPS / SSC / RRB etc.) is concerned. Generally, the students start preparing for competitive exam after their graduation and thus cannot make effective use of the very vital undergraduate years for laying strong foundation for their competitive exams preparation. To overcome this shortcoming, the programme of B.A. (CEP) has carefully designed the Competitive Examinations Programme for the undergraduate students who aspire to achieve success in competitive exams. This programme has been designed as an introduction to the preparation for civil services exams. The students are given exposure to a broad range of topics, keeping in mind the needs and requirements of the preliminary & mains exams of competitive exams. The programme is delivered by faculty members, visiting scholars and specialized practitioners in the respective fields.

The topics covered in B.A. (CEP) include English, Marathi, Public Policy and Administration, Politics, History, Geography, Economics, Science and Technology, Mental Ability, Mathematics and Current Affairs. The B.A. (CEP) gives emphasis on Assignments, Field Visits, Screening of Documentaries and Socially Relevant Films, Seminars, Lectures by Experts as well as successful Civil Services candidates etc. it focuses on development of the overall personality, communication skills, competitive approach, writing skills etc. Various methods are utilized for cultivation of these skills such as Group Discussion, Presentations, Newspaper Reading, Book Review, Mock Parliament, Mock Interviews etc. The programme aims at enriching the overall learning experience of the students through various methodologies and making them curious about the happenings around them. Through all these efforts, the students are mainly prepared for General Studies. They are also introduced to some optional subjects and are assisted in choosing the same. All these efforts go well in laying a solid foundation not only for preparation of competitive exams but it proves to be extremely useful for overall personality development of students who would like to pursue any other career as well.

Wishing you best luck in your chosen career.
